## How Can You Earn Money?

**Believe it or not, you are able to earn money now. If you want to go to college or buy a car someday, you'll want to start earning and saving money now. While you are not in school this summer, there are plenty of things you can do to earn money, practice being a business owner, and make your parents proud at the same time!**

**Clean the House** - You can help with the dishes, vacuuming, dusting, laundry and keeping your room tidy. If you have an elderly neighbor that your parents know, maybe they need some help doing these things too.

**Yard Work** - If you're able to push the lawn mower or operate the riding mower, that is a weekly job at least! If not, you can help pull weeds in the flower beds and keep everything nicely watered. This might take a little on-the-job training to identify a weed from a flower... mom and dad can help train you properly.

**Pet Care** - Walk or play with your own or the neighbors dogs daily. They need exercise just like we do, and it's fun! Sometimes, your neighbors need someone to watch their pets if they go on vacation. This helps them out, having someone they know and trust care for their pets, and earns you a little money too.

**Babysitting** - Even if you're not old enough to stay alone, you can help play with your younger siblings while your parents get some things done or you can do the same for your neighbors or family friends.

**Tutoring** - If you are a genius at math, reading, or any other school subject, see if a neighbor or friend needs help for the upcoming school year.

Of course, make sure your parents approve of any job you are doing at home or at someone else's house. You can advertise your helpful services with word of mouth or ask your parents to put the word out on their social media accounts.

When you earn your money for your job, be sure to deposit it in your High-Yield Youth Savings Account at Genisys! We pay you interest each month when you put your money in a savings account, which helps it earn more over time!
